Capt. Meehan and Fr. Rewkowski, Res. Co. 4, carefully work to seal leaking valve on propane tank truck. Averting a possible catastrophic explosion, Fire Dept. members finally sealed the valve with a rubber plug. Box 2-2-1732 was transmitted for this unusual incident which took place on Aug. 8, 1980 on the Manhattan off-ramp side of the Geo. Washington Bridge. (Photo by P. Verso, FDNY Photo Unit.)
