FEMA TASK FORCE MEDICAL TEAM
MEDICAL INFORMATION

Medical Services (EMS) are provided on-site by EMSA, a private ALS service that contracts with the city.

The EMS supervisor today is Glenn Clark, EMT. Tony McCardi also has supervisory capacity.

They are aware that our medical teams will attend injuries to Task Force personnel and that a physician will be riding with the Task Force casualties to the hospital. They have no problem with this. Notify them immediately if a potential transport occurs. They may be contacted through any city fire personnel radio or through FEMA IST. The ambulances are situated on the east & west ends of the building. They are aware that we are willing to help with any other injuries or any located live victims.

There are 3 potential hospital receiving facilities, all "full service", (there are apparently no trauma designations in Oklahoma). The facilities and emer. dept. phone numbers are:

St Anthony's 272-6152
Presbyterian 272-0359
University 272-0357

VOLUNTEERS FOR EYE INJURIES
DR. WALLON 631-1527
DR. HEWETT 634-3319
MONTY SNOWDEN (OPT) 682-8991

I've called and spoken with emergency physicians at each facility and told them about us. They are happy to receive patient's accompanied by FEMA medical team members.

Local veterinarians have responded to some CNN statement that they were needed on scene. One will be available at all times at the IST to care for any canine illnesses or injuries. They are also available for canine health checks. Please make your search team managers aware of this.

Scott Bjerke, M.D. from Clark County, Nevada's US&R Task Force will be providing IST medical coverage during the day shift today.

Joe Barbera, M.D.
